Six Zone and 13 Inland NW Records Fall in Pullman

Northwest Zone swimmers from as far as the Oregon coast, western Washington and Missoula Montana participated in a two day Zone Championship meet at Washington State University's Gibb Pool. The NW Zone Championships served as a warm up to the national championships which was held in Indianapolis in late April.

The youngest swimmers participating in the zone champs were WSU students Kelly Crandell and Monteo McCudden both 19, with the oldest swimmer being Charles Woolls (84) of British Columbia, in addition to Jean Rudolph (78) of Moscow and Marion Chadwick (78) of Mercer Island.

A total of six NW Zone records fell over the weekend including a blazing :23.00 for the 50 yard Butterfly. Tyler Jourdonnais (34) of Missoula broke the existing record of :23.34 to become the new record holder in one of swimming's most difficult sprint events. Jourdonnais a former University of Arizona swimmer, also clocked in a :54.61 for the 100 yard Backstroke for a new NW Zone record.

Former Olympian Barbara Jackson (70) also of Missoula, broke four NW Zone records in her 70-74 age group. Jackson

"The Coeur d'Alene Connection," from left Margaret Hair holding "Coach Ray," Cindy Clutter, and David Daboll, all having a good time in Pullman at the Zone Champs Meet.

shattered the 100 yard Backstroke record of 1:39.01 clocking in a 1:33.34. In addition, Jackson also set records in the

Simpson would be presented the INW Most Inspirational Swimmer Award at the Saturday evening banquet. Chair Elin

Zander who presented the award noted, "Susanne shattered a finger in a car accident, and required surgery and a number of screws to put the finnger back together again. Susanne kept swimming and training for nationals (she had her doc make

her a waterproof splint), and continues to swim exceptionally well. Congratulations and good luck at nationals Susanne!"

The women's 45-49 age group contributed five of the new INW records. Elin Zander of Inland Empire YMCA broke records in the 1650 Freestyle, as well as the 100 and 200 Breaststroke events, while Coeur d'Alene's Margaret Hair broke

See NW ZONE CHAMPS on page 4

:23.00

100 yard Individual Medley at 1:37.47 as well as the 50 and 200 yard Backstroke events at :42.91 and 3:24.48 respectively.

In addition to the six NW Zone records to be broken, 13 Inland Northwest (INW) Masters records fell. In the Women's 35-39 age group, Susanne Simpson from the Spokane Club Masters broke records in the 50 and the 1000 Freestyle events, in addition to the 200 Backstroke.

- May 18 **Inland Northwest Masters Board Meeting** 6:15 pm, Worley, Idaho—Tribal Casino. For details contact chair Elin Zander.
-
- May 28 **Onion Man Triathlon**, Walla Walla, Washington. Go online at www.wallawallawa.com/onionmaninfo.htm for details. Entry deadline is May 12.
-
- July 1 **USMS Open-Water Clinic** Dorena Lake near Cottage Grove Oregon
- July 2 **Dorena Lake Open Water Swim**
For details on either the clinic or the swim, contact Dan Gray at 541-944-0529

View from the Chair

Many years ago, when I served my first term as president/chairman of the Inland Northwest LMSC, I thought it was a good idea to write a column for each newsletter. I still think it's a good idea, and it is done commonly in other LMSC's throughout the country. Unfortunately, it is not something that subsequent chairs in the Inland Northwest wanted to do. I can understand that, it's one more thing to do, and one has to think of something to say. I remember that my very first column started with the words: "There are as many reasons to participate in masters swimming as there are masters swimmers." Fifteen years later, I still believe that. The challenge for the LMSC is to try to meet the needs of all our members, on a slim budget and with a cast of several!

For those of you who were unable to attend the recent combined NW Zone and Inland NW Championship meet and banquet, you missed a great meet and a good time. Many thanks to Doug Garcia and the members of the WSU Masters

team for their hard work, and the excellent and plentiful food! We had 26 swimmers from outside our LMSC and it was fun to see old friends and make some new ones. The pool was fast and so was the competition.

Short course season is over after USMS Nationals in April, but that is no reason to stop swimming. Besides triathlons, there are numerous swimming opportunities to be had this summer. Lake City Masters will host the annual Steve Omi Swim in July, Eric Ridgway and friends will be doing another Long Bridge Swim in August, and Oregon LMSC will be hosting the National 10K Open Water Championship this year. In addition, there will be the NW Zone LCM champs at Mt Hood Community College the first weekend in July! Our swimming cup runneth over. Stay in the water and stay healthy!

Open-Water Training

By Michael Collins

So, you're set to swim this year. You've worked-out hard for months to get ready for this race, gone religiously to Masters workouts and put in countless yards in preparation. You feel good in the water—like you could swim five miles without getting tired.

Suddenly, you are at the race and everything feels different. At 6 am, as you climb out of your toasty car into the brisk morning air, you forget all the hard training you've put in. You have only negative thoughts. You contemplate how cold and miserable the water will be. You remember your last race. Boy what a fiasco that turned out to be. You tripped and fell on you face running into the water at the start. Then, as you rounded the first buoy, it felt like you were in a washing machine full of piranhas. Your goggles got knocked off and 50 people swam right over you—and that happened in the first 100 meters! It didn't get much better because you got off course, swimming an extra 200-500 meters, and you swallowed half the ocean, or at least half a gallon, due to the choppy conditions. Finally, trying to run out of the

water, you fell on your face again. Open-water swimming is hell!

Does any of this scene sound familiar? I think everyone has had at least one unfortunate experience in an open-water swim. The following suggestions for training and racing may help you avoid some bad situations.

Pool Training

First, remember that open-water swimming is very different from pool swimming. My first open-water swim several years ago illustrates this. I was really psyched up. I consider myself an accomplished distance swimmer, and I could swim 1500 meters—no problem. When I got to the race, I saw all these guys I knew who had done very well at the previous years' swim meets, and I knew I wouldn't have any problem beating them, since I usually could in the pool. I went down to the start, the gun went off, and I go my butt kicked. Much of the scenario I mentioned earlier happened to me. I knew how to pool swim, but I knew little about sight-breathing, drafting or swimming without a line on the bottom or lane lines. Before my next open-water, I adapted my pool workouts and had much more success with my next race. The following are tips on preparing for an open water swim without swimming in open water.

Get in two or three long, straight swims (1000-3000 meters) leading up to the race. Building swimming endurance is essential.

If you come out of the water totally exhausted, it's going to be a long day on the bike and on the run. However, long, straight swims can become very boring and somewhat useless if certain goals aren't met. Keep track of your time, so you'll have a figure for comparison in the future. Calculate your goal pace per 100 and try to stick closely to it. If your goal workout time for a 1000 is 15:00 (1:30 average per 100), you shouldn't go out in 1:18 and then be swimming 1:38s at the end. Count your stroke every fourth length or so to check consistency and efficiency of your technique as you fatigue. In a 25 yard pool, a good stroke count is 17 per length, 18-20 is pretty good, 20-22 is average, and over 23 is inefficient (count each time the hand enters the water).

Stroke work, interval training and sprinting are also important. Good technique will prevent you from fatiguing too early and a strong sprint is helpful for race starts. Perfect form cannot be practiced for long periods of time. Cut

NW ZONE CHAMPS from page 1

records in the 50 and 100 Freestyle events. Many of the new records were the result of aging up.

In the men's 45-49 age group, Larry Krauser also of the Spokane Club Masters, would break four records in the 100, 200 and 500 Freestyle and the 100 Butterfly events. Also setting a record was Pat Sharp Brown (55 of Spokane) in the 200 Breast.

Top Ten Chair Margaret Hair presented the High Point Male and Female award at the Saturday banquet. Hair noted, "even without counting in Sunday morning events, the high point male swimmer would be Larry Krauser, and the high point female would be Elin Zander."

In addition to the swimming awards presented at the Saturday evening banquet, INW chair Elin Zander also announced the Most Dedicated Award. The Most Dedicated Award recognizes the individual who has given the most to the organization over the past year or years. This year the award was presented to Marie Glynn of WSU Masters for the work she has done as LMSC treasurer. In presenting the award Zander commented, "unfortunately our financial management and books had been rather neglected for the past couple of years, and she has had (and has) the enormous task of deciphering the information and getting us back on track again. I don't know what we would have done without her efforts!"

Zander also recognized the efforts of Nancy Taylor, secretary; Zach Taylor, data entry; Doug Garcia, newsletter editor and champs/zone meet director; Diana Leake, sanctions chair (who has submitted her resignation); Margaret Hair, top ten and records.

For the rest of the Zone Champs results, see above.

INLAND NORTHWEST MASTERS

Swimmer Profile

NAME: Bernard Sauvé

AGE: 45

OCCUPATION: Self employed automated lubrication systems technician

CLUB: Wenatchee Valley Masters

YEARS SWIMMING MASTERS: 10

FAVORITE EVENT: 100 Yard Individual Medley

WHY: The scenery changes at each wall

FAVORITE FOOD: Steak

FAVORITE MOVIE: currently Armageddon

FAVORITE MUSIC: Dallas Holm, Contemporary Christian

LITTLE KNOWN FACT: "I am a master diver as well as master swimmer. I am also in the top ten nationally for my age group in all three events, 1 meter, 3 meter and platform diving."

BEFORE A MEET: "I skip practice the Friday before and always swim hungry."

AFTER A MEET: "I get unhungry real fast."

EDITORS NOTE: Bernard also contributed a case of Wenatchee Valley Apples to the NW Zone Champs meet, THANKS BERNIE!

From the Editor

The short course season is over, but there still is a lot of swimming yet to do this year. If you haven't done an open-water swim do one this summer, there are many opportunities here in the Northwest.

As the summer starts, the Inland Northwest board will begin planning the next short course season which will begin in September. This past season there were only 3 meets in our LMSC, do we need more? Maybe we want clinics, like the one last year at

Gonzaga University. Whatever it is you want in terms of swimming activities, the board needs to hear from you. Consider attending the board meeting on May 18 in Worley Idaho or by making your ideas know to your team representative. If the board doesn't hear from you, we can't provide the activities that you want!

—Doug Garcia

OPEN-WATER TRAINING *from page 3*

distances down to a point where you can hold excellent form the entire way, (maybe 25s or 50s), rest and repeat. Eventually you will be able to maintain proper technique longer.

Practice sight-breathing (lifting your head for bearing and air without losing rhythm or speed). From May through September, triathlete and open-water swimmers complete most distance sets sight-breathing twice each length. The goal is to swim as fast sight-breathing as without. At first these workout may slow your times considerably and tire your neck and shoulders—but it's better to learn this in a workout than in a race.

Occasionally practice drafting close behind others of a similar ability. Learning how to draft right behind someone else's feet can be a valuable skill, but it takes practice to be perfect. We make this a game in workouts, switching the lead every 100-300 yards.

Swim with your eyes closed (25s) to see how straight you swim. You will learn whether you ten to veer off to one side and make adjustments accordingly.

Triathlon/Open-Water Racing

The more time you spend in open-water, the more comfortable and consistent racer you will become. Practice open-water swimming if possible. Get used to cold and murky water, waves, currents, and all the variables you will experience.

Once at a race, there are several steps you can take to increase the probability of a successful swim: If possible, look at a map of the swim course before the race. Know how many buoys there are and on which side of them you should be swimming. A mental picture of the course will help you keep on track. Look for landmarks around the swim start to help guide

you. Turn wide around the buoys if the swim is crowded. The distance saved by turning tight against the buoy is usually lost in combat with others.

Check the bottom conditions at points where you enter and exit the water. Knowing of holes, rocks, seaweed and slippery boat docks can prevent an embarrassing and time-losing fall. Also, swim as close to the finish as possible, until your hands are scraping the bottom, so you won't have to run barefoot across hazardous conditions.

Draft behind someone slightly faster if possible. Drafting can save as much as 5 to 10% effort. Don't sprint the swim finish

(unless it's for a swim preem). It's more important to keep your hear rate low. Save the hard effort for later in the race.

Don't freak! Try to stay calm and relaxed, regardless of the conditions or competition. In most circumstances, your biggest enemy isn't the weather or other racers: it's your own insecurity. A mind clear of anxiety will think much better and allow your body to perform better as well. Good luck at the races!

Mike Collins coaches the Bruin Masters at UCLA. He is an accomplished open-water swimmer and coach. In 1991, he was awarded the USMS Coach of the Year Award.

Open-Water the focus of Montana Clinic

The Missoula Montana YMCA recently played host to a USMS Mentor Coach clinic. Mentor Coach clinics bring in an expert coach to teach to local coaches, who then aide the expert coach to a group of swimmers.

Mo Chambers from Los Gatos California was the coach leading the Missoula clinic. Her session with the afternoon swimmers focused on open-water training. One area in which she emphasized was swimming in a crowd. To often swimmers like to swim in a lane by themselves, and this does not simulate the open-water swim environment. "The solo swim in a quiet lap pool will not prepare you for the coziness of open-water swimming," commented Chambers.

A few sets that she has used to emphasize a crowded open-water swim include:

4 x [3 x 25; 1 x 50]

- the 25s are fast, swimming three abreast in the lane and leaving the wall at 2 second intervals.
- the 50s are easy swim or drill

3 x 500

- swim in a circle, leaving at 2 second intervals to allow drafting
- switch the leader after each 100
- the leader tries to loose the group

Chambers also noted that open-water swimming will require many changes in your heart rate, particularly at the start, the buoys, passing and drafting. A sample set that would simulate such swimming can be:

Pace 600s resting 1:00 after each and broken as follows:

- #1 200 fast/200 moderate/200 build
- #2 200 moderate/200 build/200 fast
- #3 200 fast/200 moderate/200 fast
- when settling back to moderate pace focus on technique and rhythm.
